OBJEKTIVE

I'm a junior front end developer from Ukraine. I work mainly with such frameworks as: React, Next.js. I also have a good knowledge of CSS/SASS and JavaScript in the ES6 standard. Did projects for clients from Norway, Vietnam, Germany and Poland. After half a year from the beginning of education, I got my first job. During my time in this company, I worked on many projects, helped in integrating maps into projects for partner companies, made a portfolio website for the company, made changes to existing projects and created new ones from scratch. worked on a tax refund application.
